

Rigelle Cruz

FULL-STACK WEB DEVELOPER

As a full-stack web developer, I am driven to utilise my problem-solving skills and technical knowledge to build creative solutions that can make a difference in people's lives. I thrive in both collaborative and independent settings, where I can successfully contribute my knowledge and skills in creating amazing digital experiences.

PERSONAL SKILLS

Problem Solving

- Employed creative thinking and technical expertise in both frontend and backend of software development.
- Proficient in integrating third-party APIs and services, solving challenges related to data format and authentication.
- Diagnosed and eliminated bugs in an e-commerce application, combining problem-solving skills with proficiency in web technologies for swift issue resolution.

Attention to Detail

- Demonstrated meticulous attention to detail throughout web development projects, especially in code implementation.
- Implemented automated unit testing to a music-sharing app, ensuring each unit of code performs its intended function correctly.
- Meticulously tested and assembled circuits with attention-to-detail, while maintaining high-quality standards for electronics.

Collaboration & Communication

- Collaborated seamlessly within agile teams, fostering effective communication and productive teamwork.
- Actively contributed to technical design in development projects and developed strong relationship-building skills.
- Responded promptly to client inquiries, delivering solutions and ensuring client satisfaction.

Versatility and Adaptability

- Quick learner and adaptable to new technologies and frameworks as project requirements evolve.
